New city, new parks, same parents

New to London and looking for special places to share your evenings with your children? Welcome to the city of parks!

When you are a newcomer to the city you have a mind full of questions, and when you are a father even more. One of them is what can I do with my children in this unknown city? This site is dedicated to showcasing the beautiful parks that exist in the city of London, Ontario. These unique spaces full of life will be the opportunity to enjoy happy moments with your children while you get to know the place. Enjoy and become your family's tour guide.

Trails along the river
in the middle of the city
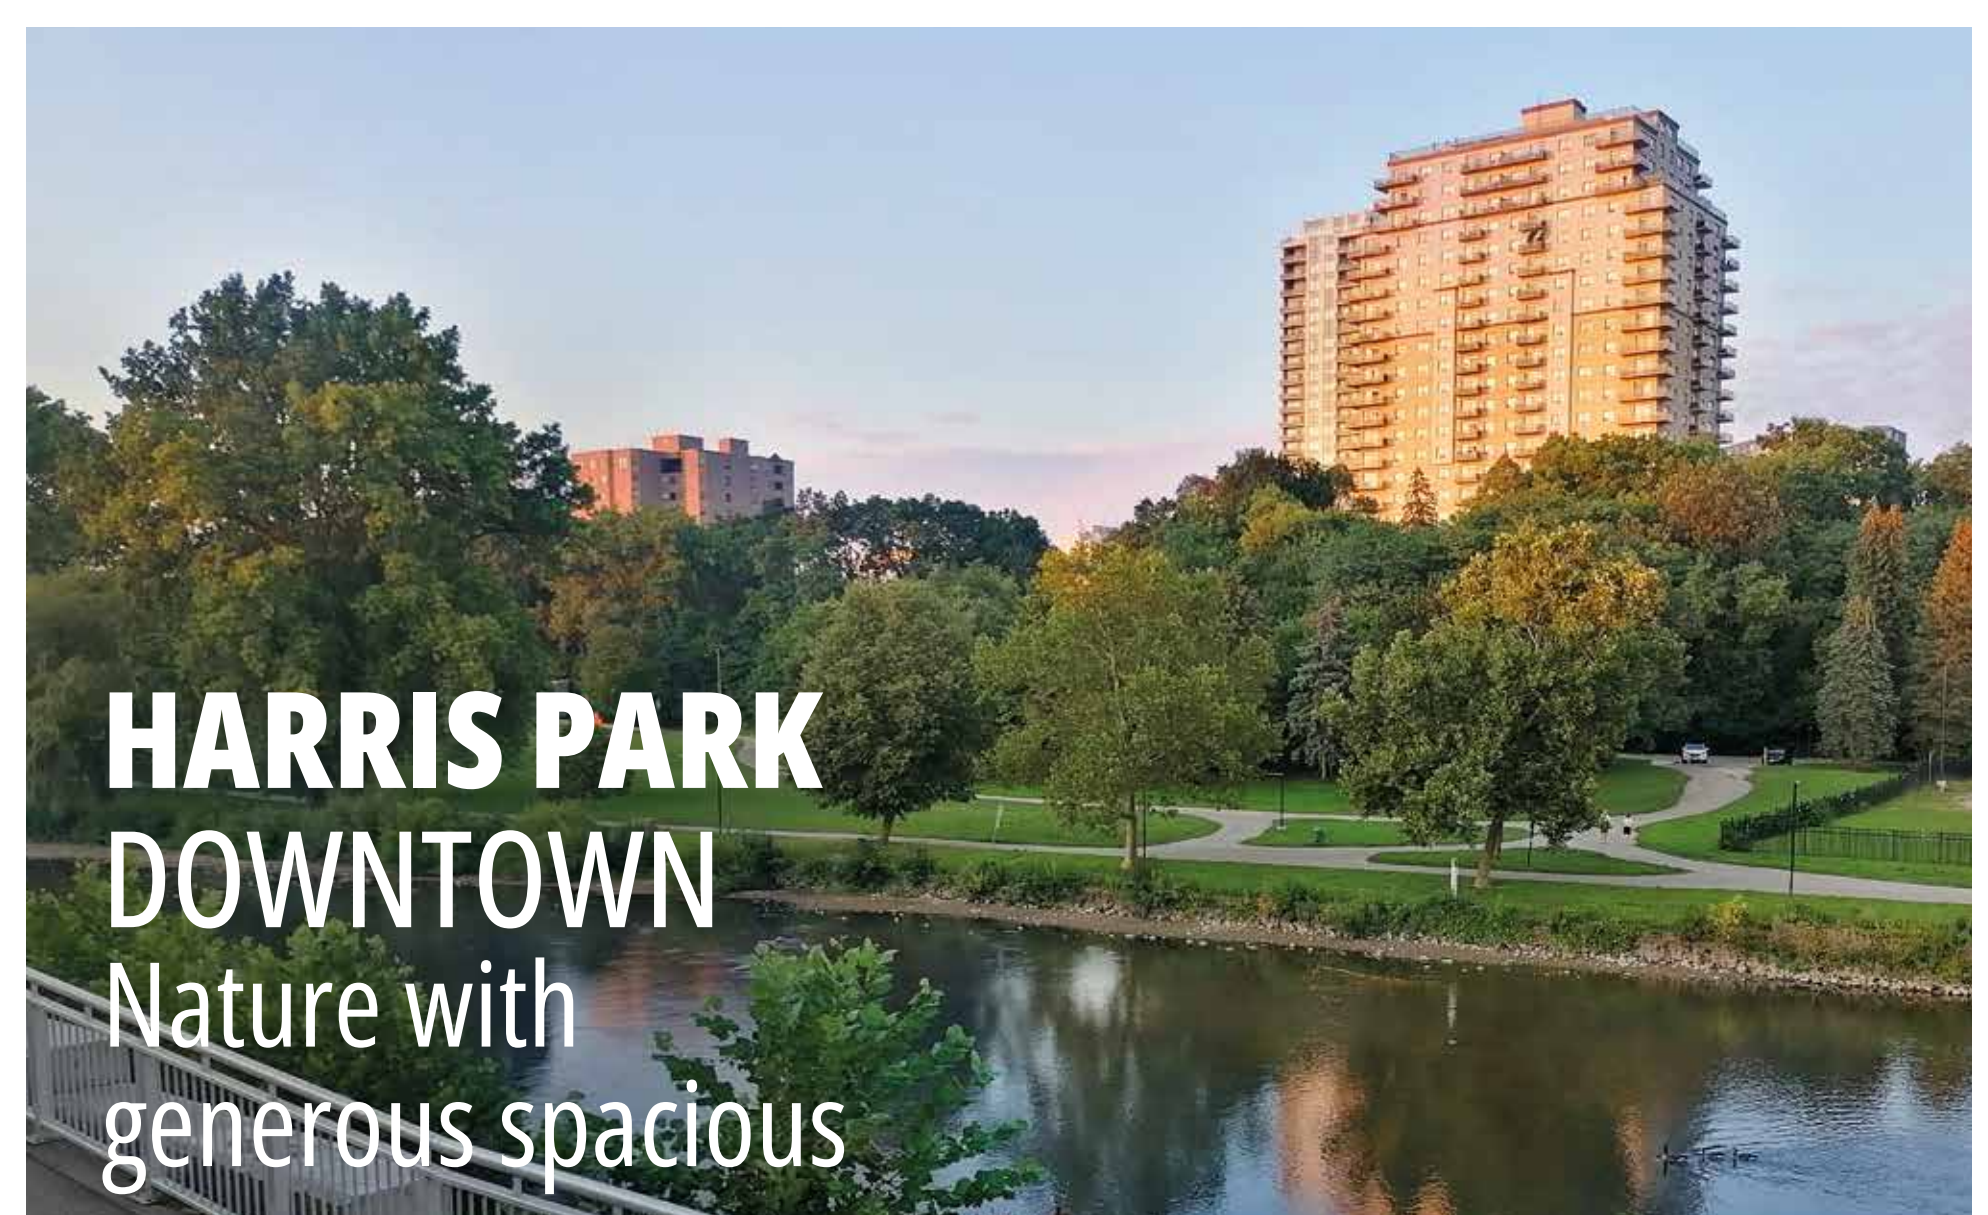

SPRINGBANK PARK
SOUTHWEST
Great spaces, great games,
great moments

VICTORIA PARK
DOWNTOWN
History, culture
and nature

HARRIS PARK
DOWNTOWN
Nature with
generous spacious

IVEY PARK
DOWNTOWN
Trails along the river
in the middle of the city

The perfect combination of nature, children's games, water features and trails to move around.

Located in the center of London, just 2 blocks from Budweiser Gardens, is the Ivey Park, a large park where there are different spaces to share with the family along with a wonderful view of the Thames River.

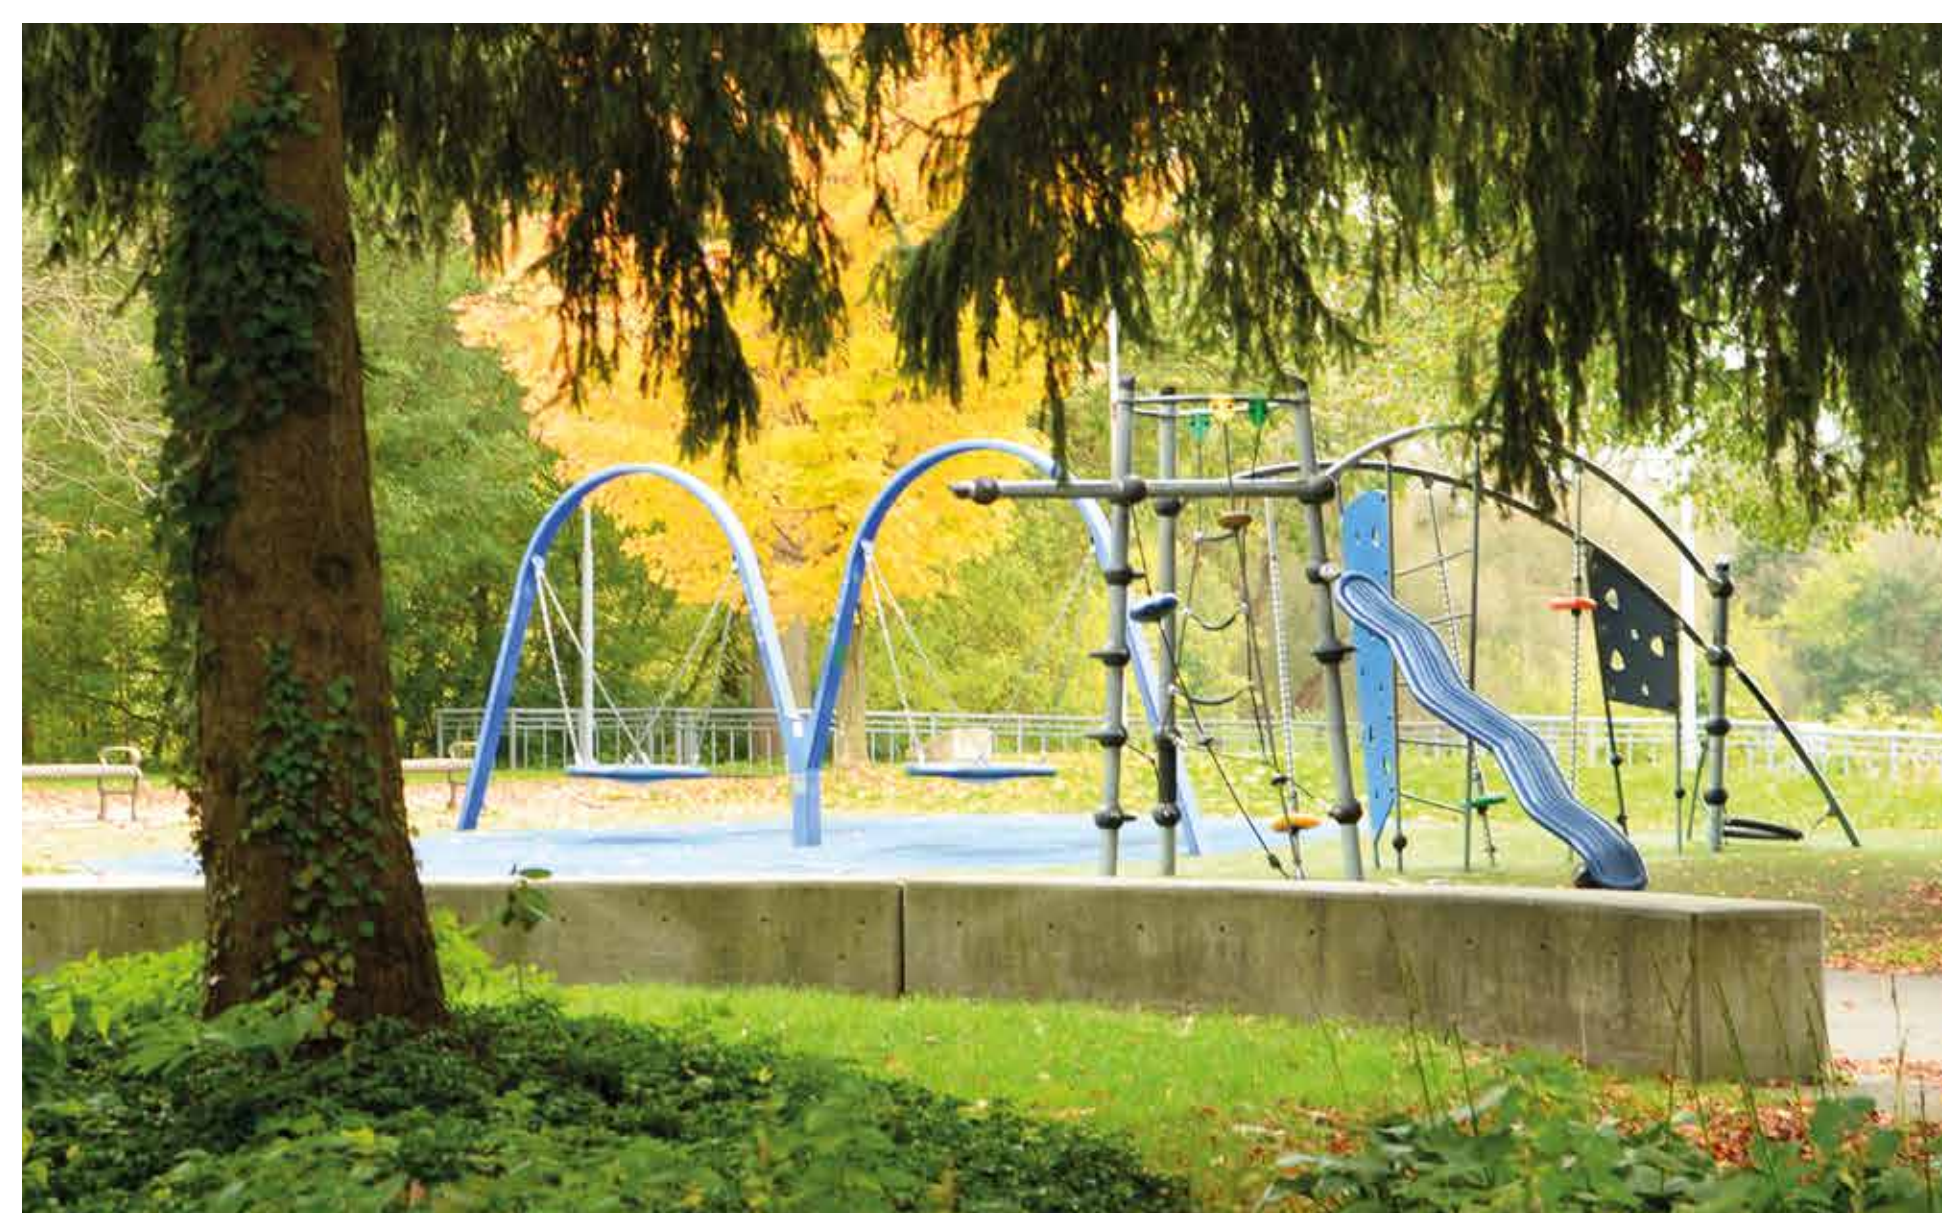

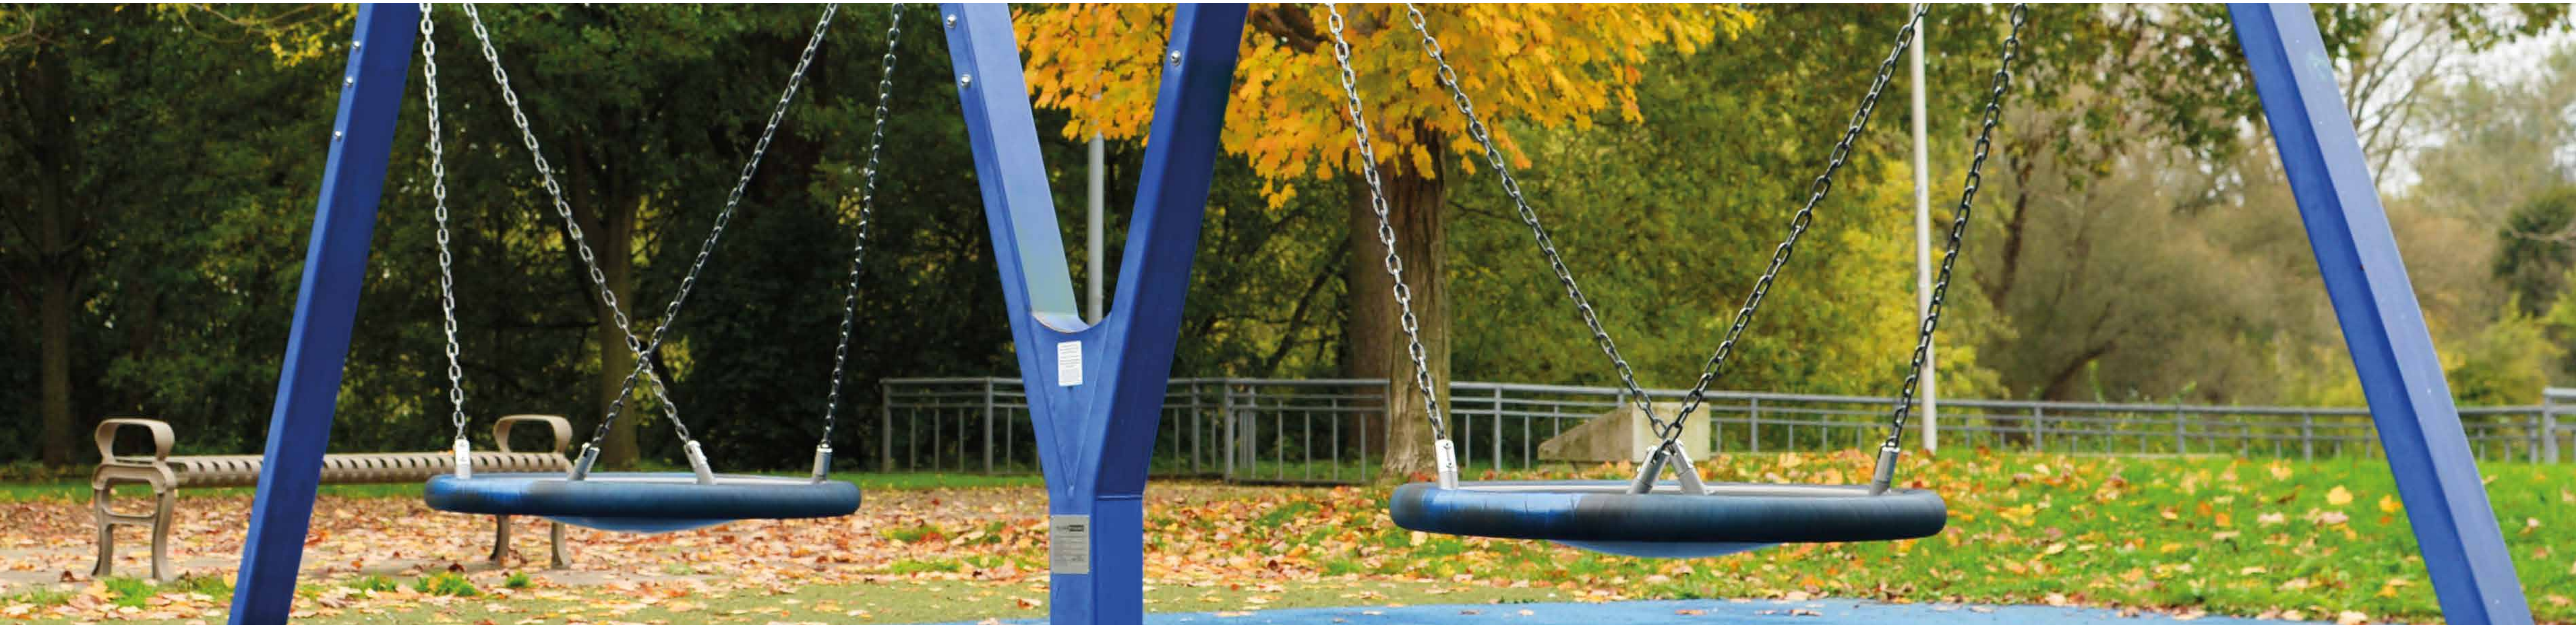

Wide trails for exercising, biking, or walking.

The Ivey Park is crossed by a large number of trails for you to practice different sports and activities, you can cross them with your children while walking, riding a bike or skateboards. It is in turn connected to a long path that runs along the entire length of the River Thames.

Children's playgrounds, a classic that every park must have

An essential of any park is that it has a playground for the little ones, this park is not the exception where young and old can have fun times, children being children and adults ... too.

This site intends to grow and grow, there are so many parks and so many things to know in the city that it becomes a challenge to know them all, help us to make this site grow, leave us information about new parks that are not on this site to go to know them and expand our content.
